# SILHOUETTE®

Window Shadings

*Unlike any other product on the market today, Silhouette® window shadings, with the Signature S-Vane™, give you the ability to transform light into gentle, diffused beauty.*

***Style.** This unparalleled elegance is versatile enough to complement any window in your home.*

*And our full palette of colors and variety of vane sizes and fabrics allow for limitless design possibilities.*

2" vane

3" vane

4" vane

# LUMINETTE®

Privacy Sheers

*When drawn open with fabric stacked back, your favorite views are completely unobstructed.*

*When the vanes are rotated, you can achieve any level of illumination desired.*

*When the vanes are closed, you're in a private world all your own.*

*Luminette® Privacy Sheers were created to completely manage the light in your home.*

**Style.** *Our graceful folds recall traditional draperies but with a lighter, softer feel.*

*And our sheer fabrics are made of 100% polyester which means greater durability and easy care.*

# Woven Shades

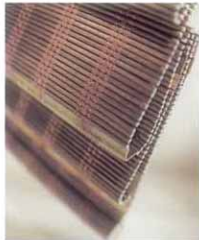

Wood & Grass

*There's something so magical about light pouring through bamboo, reeds and grasses.*

*Discover how this can change the feeling of your home with woven wood & grass shades. They combine traditional styling, natural materials and ultra-modern technology.*

*Style. Our shades are a unique blend of wood, reeds, grasses and bamboo. These exotic pairings of nature result in stunning combinations that filter the amount of light entering the room.*

# Wood Blinds

Nothing appeals to our sense of natural beauty quite like wood. For warmth, durability, and versatility, wood is the natural choice for almost any decor. Like fine furniture, wood blinds reflect a lasting level of quality and craftsmanship in a superior window covering.

**Style.** Furniture-quality finishes consist of distressed or aged woods, hand-glazed finishes, multi-colored stains and enhanced grain patterns.

Unique valance designs display elegant details. (Examples are shown above).

Extraordinary craftsmanship shows in every detail.

Distinctive slat shapes provide added dimension and a dramatic look.

Exclusive decorative tape designs bring a splash of color or harmonize with the wood.

Coordinating wood tassel shapes are the perfect finishing touch.

# Roman Shades

*Soft, yet durable..... fashionable, yet romantic. Roman shades are as soft and elegant as a drapery, yet as practical as a shade. Each shade is made of specially woven fabric that forms either crisp contemporary flat folds or gently contoured fold.*

**Style.** *Distinctive woven fabrics bring rich texture and color to every window. Roman shades can be made from hundreds of different styles, fabrics or your own material.*

# HERITANCE®

Hardwood Shutters

*A good architect always builds light into his plans. For centuries, this was done with wood shutters.*

*Now, Heritance® hardwood shutters recapture that time-honored technique, using real wood and the construction principles of fine furniture.*

*Style. Heritance shutters come in either 2½", 3½" or 4½" elliptical louvers, in more than 60 artisan-grade paints and nearly 40 rich stains.*

# Honeycomb Shades

*Honeycomb shades are energy efficient, easy to maintain, and simple to install and operate. Their innovative construction helps keep heat in during cold winter months and hot air out during Summer months. A beautiful look combines with lasting strength, durability, and superior performance.*

***Style.** Honeycomb shades come in an extensive wardrobe of fabrics and textures with a remarkably wide spectrum of colors, from the softest neutrals to the exquisite jewel tones. Together with three pleat sizes,  $\frac{3}{8}$ ",  $\frac{3}{4}$ " and our exclusive  $1\frac{1}{4}$ ", it's like creating your window fashion from scratch.*

# DUETTE® ARCHITELLA™

Honeycomb Shades

The Architella™ Collection from Duettes® honeycomb shades doubles nature's most perfect shape, the honeycomb, to create a revolutionary shade.

**Style.** Choose either the light-filtering semi-opaque fabrics or the room-darkening Eclipse™ fabric in one of two pleat sizes, the versatile  $\frac{3}{4}$ " or the larger  $1\frac{1}{4}$ ".

# SKYLINE™

Gliding Window Panels

*The modern solution for large and small window expanses, Skyline™ Gliding Window Panels provide a clean, sleek and contemporary look designed to maximize any view.*

*Sytle. The fashion-forward fabric selection comes in five different categories: sheer, semi-opaque, opaque, screens and naturals/ woven grass.*

*The large array of fabric colors and styles give Skyline window panels their modern, sleek yet inviting personality.*

# Solar Shades

*The perfect choice when you want to subdue light - not block it. Solar shades are sheer enough to invite the outside in while protecting your furniture from harsh sunlight. Solar shades provide up to 95% reduction in U.V. rays, glare, and heat gain while maintaining a view to the outside. These shades give exceptional window management which meets both the aesthetic and functional needs of the home and office environments.*

# BRILLIANCE®

Pleated Shades

*A simple idea, simply executed. Isn't that what true elegance is all about?*

*The pleated fabric used in our Brilliance® shades seems to shape the light in new and room - enhancing ways.*

*It's not just a good idea, it's brilliant.*

***Style.** Our pleated shades come in colors, colors and more colors, and in fabrics that you'd never have expected in shades.*

***Privacy/View shades** combine sheer and opaque fabrics in one shade for appropriate light control any time of the day.*

***If you need a little more privacy,** choose from one of our two backing options.*

***Top - Down/Bottom - Up shades** give you light from the top white maintaining privacy at eye - level.*

***Our Two - On - One Headrail shades** easily cover large window openings.*

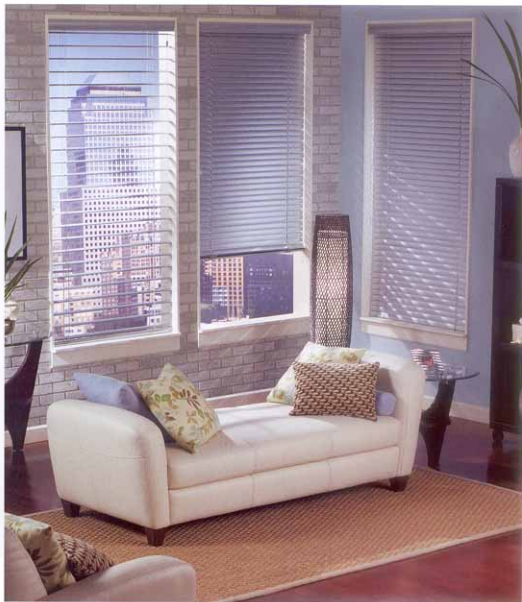

***Special lifting and opening systems** are perfect for hard - to - reach windows and provide enhanced child and pet safety.*

***And, of course, Brilliance pleated shades** are available in custom shapes to cover nearly any window, from arched to angled to round.*

# MODERN PRECIOUS METALS®

Aluminum Blinds

*Our spring-tempered, bounceback slats stand up to the roughest treatment.*

*The exclusive Dust Shield™ treatment inhibits dust build-up on slats.*

*For maximum view-through, our innovative Reveal with MagnaView™ blinds tilt open to reveal twice the view of standard blinds.*

*Sleek headrail systems with built-in valances are standard on all ½" and 1" blinds.*

*The motorized remote control tilt system can tilt hard-to-reach blinds open and closed.*

*For bedrooms and media rooms, room-darkening blinds will keep out unwanted light.*

View with standard 2" blind.

View with Reveal™ 2" blind.

*Modern Precious Metals® aluminum blinds set the standard for light control.*

*With 1" and 2" slats and slats as narrow as ½", just imagine how precisely you can manage the amount of light entering a room.*

***Style.** These blinds have exciting finishes and textures, from metallic and pearlescent to linen and matte, in just about any hue imaginable.*
